

Education

SAVANNAH COLLEGE OF ART AND DESIGN

M.A. in Interactive Design & Game
Development

Expected in 9/2026

Master's Degree:

Savannah, US

COMMUNICATION UNIVERSITY OF CHINA

Animation

Bachelor's Degree:

06/2023

Beijing, CHINA

Skills

3D & Real-Time Production:

Unreal Engine 5 (PCG), Unity,
Maya, ZBrush, Cinema 4D

AI, Prototyping & UI/UX:

Generative AI Platforms, AI
Agents, Figma, Node-Based
Architecture

Rendering & Asset Texturing:

Substance Painter, Marmoset
Toolbag, Rizom UV

Motion & Visual Design:

Motion Graphics,
Storyboarding, Style Frames,
Cinematic Composition

Adobe Creative Suite:

Photoshop, Illustrator, After
Effects, Premiere Pro, InDesign

Software Experience

Adobe: Photoshop, Illustrator, InDesign, After Effects

Design / Prototyping: Figma

3D / Motion: Unreal Engine

5/Maya/ZBrush/Cinema 4D

Rendering & Assets: Substance

Painter, Marmoset Toolbag,

Rizom UV

Personal Summary

3D Technical Artist & 3d Artist specializing in digital twins, real-time rendering, and AI-driven workflows. Experienced in building large-scale procedural environments, leading full-stack visualization, and producing high-profile game art. Expert at integrating AI and generative tools into production pipelines to automate assets and maximize efficiency.

Work Experience

ZASTI, Inc. | AI and 3D Visualization Intern | 06/2026 – NOW

- AI Pipelines: Research, test, and integrate custom AI Agents and generative tools into 3D workflows to automate asset generation and accelerate production.
- Interactive 3D: Build high-fidelity, data-driven digital twin environments in Unreal Engine 5 and Unity, balancing performance with high-end visual fidelity.

BEIJING 51WORLD DIGITAL TWIN TECHNOLOGY CO. | 3D Technical Artist Intern | 01/2025 – 06/2025

- Procedural Tooling: Designed large-scale urban digital twin environments from real-world planning datasets using Unreal Engine PCG for dynamic vegetation/ecosystem systems.
- Standardization: Streamlined cross-team workflows by coordinating with GIS and engineering teams to assemble and optimize cohesive 3D scenes for executive demos.

PERFECT WORLD CO.LTD | Cutscene artist full time | Beijing, China | 06/2023 - 07/2024

- Cinematics Production: Produced high-profile in-game cinematics and layouts for the 3D mobile RPG *Persona 5 Phantom X (P5X)* using Unity timeline tools.
- Stakeholder Coordination: Partnered with VFX/Animation teams and coordinated directly with external publisher Atlus to implement technical feedback under tight deadlines.

Honors And Awards

- London Design Awards Silver Winner, 11/2023
- GBIDA International Golden Square Cup Creative Design Competition Finalist, 10/2023
- Venice International Art and Design Award of Excellence, 12/2023
